SKILLS

PROGRAMMING LANGUAGES

Python
Java
C programming
C++
HTML
Java script

DATABASES

MYSQL
Database Management system

OTHER SKILLS AND INTERESTS

Data Structures and Algorithms
Design analysis and algorithm
Object oriented programming
Data science

PERSONAL SKILLS

Communication
Team Management
Negotiation
Flexible and Adaptable
Teamwork

PERSONAL DETAILS

Languages Known: English,Telugu,Hindi
Interests: Cricket,Travelling

PROJECTS

SMART FARMING SYSTEM USING ML

•It is a website which is used to classify the different applications like crop recommendation, yield prediction, soil analysis, plant disease detection using ML algorithms.Machine algorithms like weighted k-Nearest Neighbor(k-NN), Decision Tree, Gaussian kernel-based Support Vector Machines (SVM) etc.

HOSPITAL MANAGEMENT SYSTEM

•It is a website which is used to display the list of hospitals and experienced doctors.so that user can take the appointment. Built in components using HTML and CSS. Javascript is used to add on click events and for checking matches. MYSQL is used to store the data.
